

TRI-TEC HOSTED VOICE

Are You Ready To Embrace The Cloud?

Let **TRI-TEC** Provide a **FREE** Cost Analysis For Your Voice Communications

We Have Strategically Partnered With Leading Cloud Providers

Given the changes taking place within our industry, there is a huge probability that we can reduce your telecom expenses while increasing your capabilities. We welcome the opportunity to revisit your phone expenses to see what savings are available. And if nothing is evident, rest assured knowing your operations are running efficiently.

If & When A Hosted Voice Solution Is Right For You, **TRI-TEC** Can Provide:

FREE Cost Benefit Analysis	Custom-Designed Solutions & Seamless Transition
TRI-TEC Consultation	UC & Collaboration
Procurement of Providers	On-line Administration

- **Hosted Voice:** Stay connected – stay productive...from **ANYWHERE!** A hosted voice solution offers the same real-time voice quality you're accustomed to without all the CAPEX. Your communications are always current and easy to administer since all is managed for you in the cloud with excellent ROI.
- **Hybrid:** A combined solution can provide the best of both worlds; security of equipment ownership & control with the cost savings & scalability of a combined cloud-enabled hybrid platform.
- **On-Premise:** An on-prem system provides ownership & control of your equipment investment on-site enabling you to meet your needs exactly when and how you want. Solutions can be custom-designed with full feature availability you are accustomed to.

In Addition to VOICE, We Also Provide Cloud Solutions For Your DATA To Include:

- **Desktop as a Service (DaaS):** Optimize a virtual infrastructure to access Apps. & desktops on any device; anywhere
- **Managed Services:** Let us manage your PCs, servers, security, storage, upgrades & devices from the Cloud.
- **Security & Storage:** We can help you design & implement a secure network that will keep your data safe.
- **Office 365:** Offers service subscription for email & social networking services for both desktop & mobile.

**We Stay Ahead of Ever-Changing IT Technologies
So You Don't Have To**
